Least Connection

Generic Hash

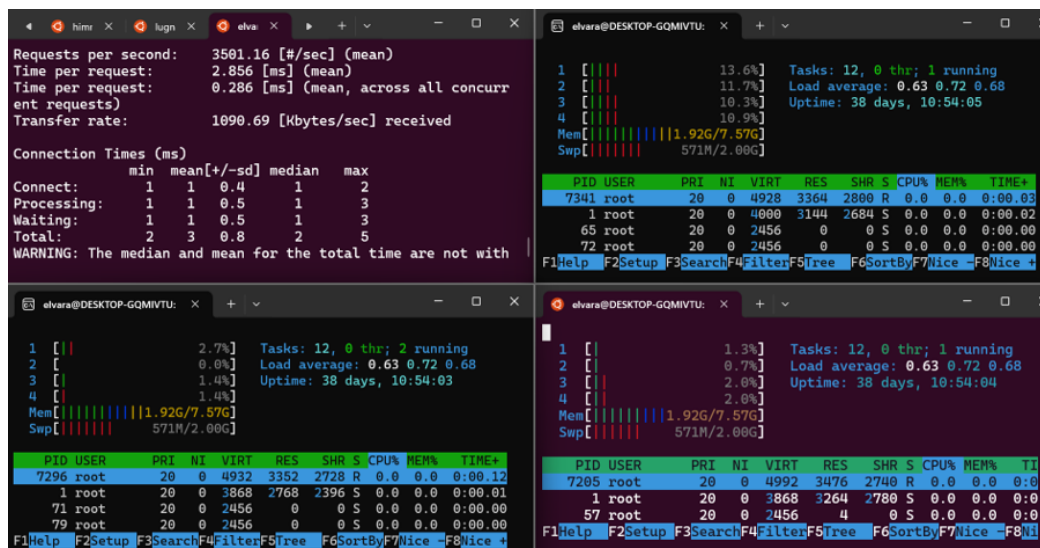

Hasil request per second

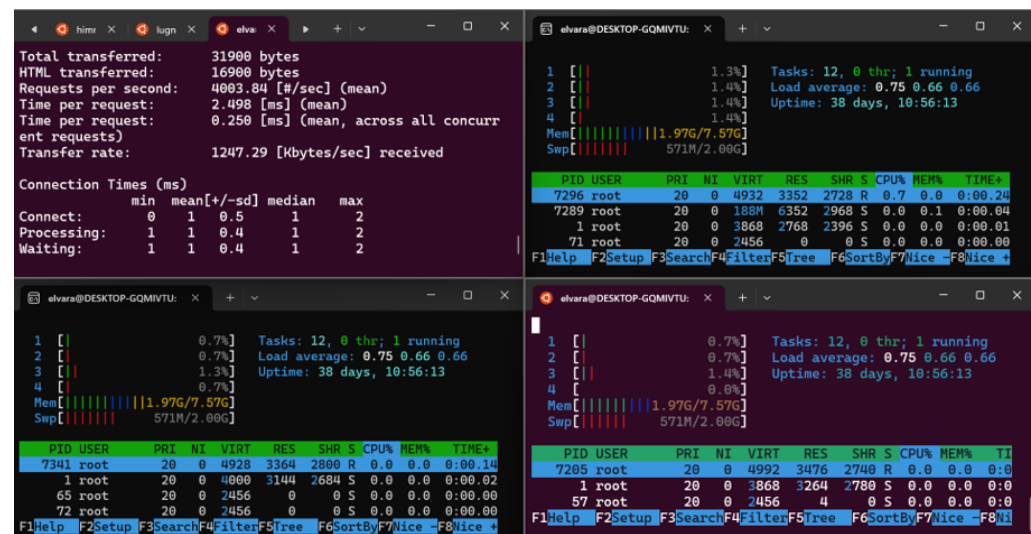

Dari hasil dihitung request per second 4 algoritma tersebut maka Round Robin mendapatkan nilai tertinggi dan Least Connection terendah

Soal 9

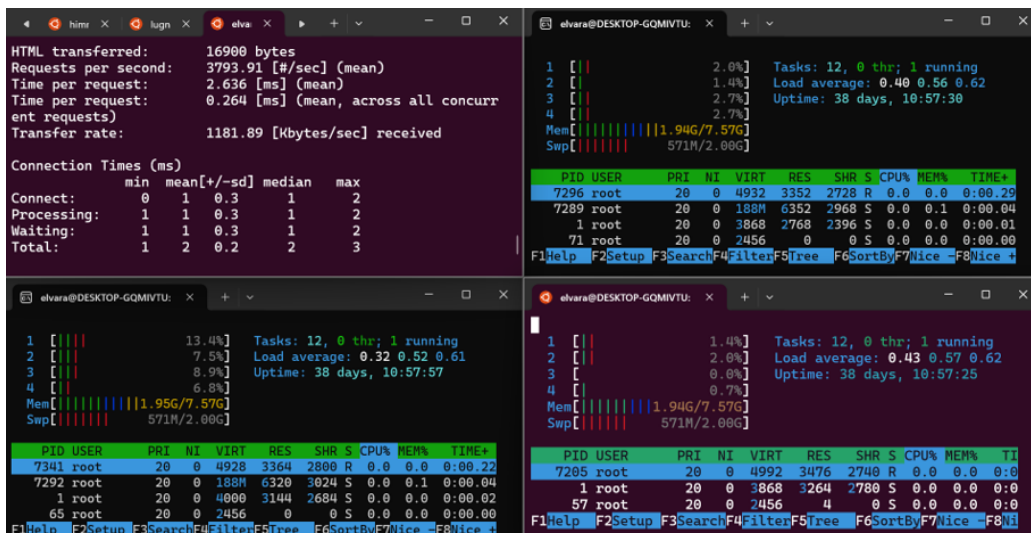

3 worker

2 worker

1 worker

Dari hasil dihitung request per second penggunaan worker tersebut maka penggunaan 2 worker mendapatkan nilai tertinggi dan 1 worker terendah

Soal 15

Response

```
root@Revolte:/# cat register.json

Kesimpulan

Dari ketiga percobaan di atas, perubahan signifikan terletak pada time taken for tests dimana di setiap percobaan memiliki penurunan time taken for tests yang artinya waktu yang dibutuhkan semakin sedikit di tiap percobaan. Namun, untuk total request yang berhasil diproses cenderung tidak terlalu berubah sehingga ketiga percobaan ini belum bisa menaikkan performa handling request-nya. Dengan demikian, dilakukan percobaan di soal 20 dengan menggunakan Least-Connection pada Load Balancer atau Eisen.
